### Free Pendulum Chart Instructions

Thank you for downloading the free Golden Pendulum Chart. The Golden Chart is all about following your intuition and exploring beyond “yes” and “no” answers. May this chart serve you well and aid you in your journey. The following are some tips and ideas for using the chart to maximize your results:

**How to Choose Questions** - With the Golden Pendulum Chart you can ask any question, on any topic, that is in the forefront of your mind. Whether it's about which foods you should eat or avoid, or about zeroing in on your divine calling, choose a topic that is close to your heart. If you're undecided on a particular journey, or you're making changes in your life that have you in a quandary as to your next best step, use this chart to get clarity and draw answers from within.

First create the question to which you seek clear answers. Next cut out the numbered cards on page four. Shuffle the first seven cards and lay them, number-side-down. We all have intuitive inclinations to answer the questions that perplex us the most. Search within and review that which you intuitively feel could be at play in regards to your question.

Let's say you have a persistent issue that you haven't been able to find resolution around. You most likely have gone over the possible contributing factors, or solutions to your problem over-and-over in your mind.

In pencil, write those intuitive leads on the blank side of each card. You can also experiment by writing down answers that you haven't already entertained, or by asking someone you trust to write some of the answers.

For example, if you're soul-searching for a new direction that will bring you toward your life's calling, you can repeat the reading process as many times as you want. Each time intuitively writing your reading answers as you explore new layers that speak to you. You could start with answers that point to a variety of professions.

Next, you can fine tune your answers to include variations such as the kind of people you would like to work with, or the kind of working environment that will bring you the most reward such as working one-on-one, with a team, remotely, at a retreat, in Hawaii with a partner, from home etc. Explore freely, allowing yourself to uncover answers that will continually lead you to discover your deepest calling.

Hold your pendulum in place above the arrow on the chart and with your question in mind, allow the pendulum to naturally swing in the direction of the numbered answer. Don't be surprised if occasionally your pendulum swings between two answers, or from one answer across to another. This means that both answers apply to your situation. Once the pendulum has clearly indicated a numbered answer, pick up the corresponding card(s) and read the answer on the back.

*The following are some tips to help you in using your Golden Pendulum Chart... and your pendulum:*

**Tips for Printing the Chart** - Depending on your printer, you may need to select “fit” in your printer preferences in order to print the chart and cards at the maximum size. When printing your chart make sure that “grayscale” is **not** selected or it may cause some of the images to print with a black background. If you prefer to print your chart in black and white, select print in “black and white”, but **do not** print in “grayscale.”
